HushBox Silence Box

Design By Morpha In Italy

Morpha Design Consultancy are an international product design & consultant company, based in Shenzhen and Milan.

We are a tight-knit team of industrial and digital designers, engineers, artists, experience experts, researchers and branding experts from around the world. We create products that will help define the way we live, work, travel and communicate in the future, from smart wearables and furniture systems, to next-generation AI and communication tools.

We would like to create the in-depth cooperation with more Chinese enterprises in design and technology, and help Chinese enterprises to create world-class products and new business models by taking advantage of our diverse and international team.

We look forward to seeing you.
